

# CORDOBA BY DANIEL LIBESKIND

Asimmetrie e frammenti all'apparenza disarticolati si sintetizzano in una lampada lontana dai canoni estetici tradizionali e ispirata all'omonima città spagnola, dove architetture e luci dipingono un'atmosfera mistica. Fogli piani di tecnopolimeri brevettati prendono vita da un algoritmo matematico e diffondono in maniera armonica la luce. Cordoba è allestita completamente a mano, offrendo diversi punti di vista a chi la osserva nella sua interezza.

*The unique, avant-garde lamp is an asymmetrical series of fragments, seemingly disarticulated, that stray far from traditional aesthetics; the lamp was inspired by the eponymous Spanish city, where architecture and light make for a mystical atmosphere. Flat sheets of our patented techno-polymer material take shape using an algorithm that diffuses the light throughout a seemingly endless structure. Cordoba is handcrafted, and offers varying points of view even when seen in its whole.*

## **CORDOBA**

### **SUSPENSION**

LED: 130W - 220VAC or 120VAC/124Vdc  
15,000 Lumen - 2700 Kelvin  
CRI > 90

Dimmable with: PWM, 0-10 or Potentiometer

---

*h1*: maximum cable length

---

Made of: **CristalFlex®**
